RESEARCH INTEREST

My work lies at the intersection of human-computer interaction (HCI) and artificial intelligence (AI), focusing on interactive intent alignment for design-space exploration. Specifically, I study how to decompose user prompts, interaction logs, and model responses into design elements that enable users to (1) iteratively refine their intents to guide GenAI-driven design tools, and (2) audit and steer the model's behavior to ensure it aligns with those intents and supports better user experience in individual cognitive space.

EDUCATION

Mar 2023 - Present
Ph.D. & M.S. Integrated Degree
Interior Architecture Design · Hanyang University, Seoul
Advised by Prof. Kyung Hoon Hyun
Design AI Lab & Human-Centered AI Design Institute

Mar 2018 - Feb 2023
Bachelor of Science in Interior Architecture Design
Minor in Computer Science
Hanyang University, Seoul

RESEARCH EXPERIENCE

Oct 2022 - Feb 2023

Research Intern
Design Informatics Lab (DILAB), Hanyang University
Collected and cleaned project data (images, logs, surveys), structured it into a schema/DB, and conducted statistical and qualitative analyses to produce actionable reports.

TEACHING

Fall 2026

Teaching Fellow (4 weeks) · AIxDesignResearch (HOM4041)
Department of Interior Architecture Design, Hanyang University
Instructor: Prof. Kyung Hoon Hyun

Spring 2026

Teaching Fellow (4 weeks) · Design Computing (HOM4025)
Department of Interior Architecture Design, Hanyang University
Instructor: Prof. Kyung Hoon Hyun · English-taught course

2023-2025

Teaching Assistant · Design Computing (HOM4025)
Department of Interior Architecture Design, Hanyang University
Instructor: Prof. Kyung Hoon Hyun · English-taught course

Workshops & Talks Attended

CHI 2026

Sensemaking Workshop
Exploring how designers make sense of AI outputs across iterations.

UIST 2026

The Personalized Computer for the 21st Century
Exploring AI-powered personalized interfaces that adapt to individual needs while preserving user agency.

UIST 2026

Workshop on Augmenting Human Dexterity
Exploring how multisensory feedback and interactive technologies can augment motor capabilities and physical skill acquisition.

UIST 2025

Mind & Motion Workshop
Exploring how biomechanical and cognitive models can inform the design of interactive systems.

CHI 2025

Bridging HCI and Industrial Manufacturing Workshop
Exploring how HCI research and industry collaboration can support human-centered manufacturing.

INDUSTRY

Jul 2019 - Aug 2022

Design Intern
One Day One Communication (ODOC), Seoul
Ran user research to capture requirements, produced wireframes, mockups, and prototypes, and structured and analyzed usability findings to deliver design recommendations.

Jul 2020 - Dec 2020

Architecture / Interior Design Intern
Arch Architects, Seoul
Produced CD sets and detail drawings, organized spec/schedule sheets, and coordinated code/consultant updates for build-ready documentation.
